

COMPANY GROUP PROFILE

Point Trading is celebrating its twentieth (20th) year of operation in Australia, having commenced business in 1987.

The **Mission Statement** of our company,

“to be the leaders in technological innovation and provide the best products to enhance defence and national security capability with outstanding service and reliability”,

ensures the commitment of **Point Trading**, and its suppliers, to our clients, in delivering products and services that meet their operational needs.

Point Trading specialises in the design, development, customisation and supply of quality ‘state of the art’, technologically advanced products. ‘In country’ research & development, combined with extensive worldwide research and ongoing development, results in solutions that enhance our clients’ capabilities.

Point Trading operates seven divisions each with a specific focus on:

- **Chemical Biological Radiological & Nuclear (CBRN)**
CBR detection and protection equipment for infrastructure and personnel including field detectors and fixed detectors; CBR protective clothing; CBR portable structures, CBR decontamination solutions; filters, first aid and evacuation equipment.
- **Electro optical, Thermal & Laser**
Night vision; image intensifier tubes; thermal cameras and thermal components; laser based devices; IR illumination systems; bore sight devices; and laser & thermal testing and calibration equipment.
- **Weapon Enhancements**
Weapon enhancement devices that enhance the performance, safety and accuracy of in-service weapons.
- **Ballistic Protection Equipment**
Ballistic protection equipment for personnel, light armor vehicles, sea and air vessels

- **Geo-spatial**
Tactical systems that provide map and aerial photography creation in real time, with the additional overlays of change detection, and DTM analysis.
- **Police Accoutrements and Law Enforcement Specialised Equipment**
- **Medical**
First aid for CBR, isolation chambers, fast deployed field hospitals, forensic testing equipment, and hospital filtration systems

Our clients include both Australian and New Zealand Defence Forces, emergency management agencies both federal and state based, federal law enforcement agencies, all state police forces and federal and state health departments.

We offer a complete service including testing and calibration, on going maintenance, support and training for all supplied products within Australia through Point Trading Services. Point Trading Services is located in a newly commissioned 500sqm service facility, equipped with a purpose built electro optical lab and service centre. Our services include:

- Assembly and pre-delivery testing of equipment
- Testing and repairing electro optical equipment
- Calibration and certification of equipment
- Distribution and storage facilities.

Point Trading is accredited in AS/NZS ISO 9001:2000 and AS/NZS 4360:2004 Risk Management.
