# CQBL-1™

CLOSE QUARTERS BATTLE LASER-1

The CQBL-1 laser offers both visible and infrared pointers in a compact housing that measures less than two inches wide and four inches long.

A single activation switch enables operators to switch between visible and infrared modes allowing a seamless transition from a covert

target approach using night vision to a dynamic entry using the brightest visible laser allowed by law.

The CQBL-1 is compact enough to use with virtually every submachine gun and has the optical output power needed for use with military assault rifles and light machine gun systems.

## CQBL-1

- Choice of
  - Red Visible Pointer (<5mW) and
  - IR Pointer (<5mW)

LE/Military only

## CQBL-1 ACCESSORIES

Right Angle Remote Cable

OPTIONAL

Straight Remote Cable

## FEATURES INCLUDE

- ▶ Rugged aerospace aluminum housing, MIL-SPEC Type III hardcoat anodized
- ▶ Meets MIL-STD-810G requirements
- ▶ Single adjustment mechanism for both visible & IR pointers
- ▶ Activation/low battery light
- ▶ Remote cable pressure pad and integrated momentary switch
  - Single tap enables momentary activation
  - Double tap activates the laser in a continuous ON mode
- ▶ Low profile windage and elevation adjusters
- ▶ Supplied with
  - Integrated Picatinny Mount
  - Battery
  - 7" remote cable pressure pad switch
  - Nylon pouch
- ▶ Manufactured in the U.S.A.

## CQBL-1 SPECIFICATIONS (PATENT NO. 7,726,061) SEE PAGE 35 FOR ADDITIONAL SPECIFICATIONS & WARRANTY

MATERIAL	Anodized aircraft aluminum 6061T-6
WEIGHT (WITH BATTERY)	6.0 ounces / 170 grams
SIZE	L 4.0 in x W 1.5 in x H 1.1 in / L 10.2 cm x W 3.8 cm x H 2.5 cm
ENVIRONMENT	Waterproof to 20 meters
BATTERY	One 3-volt 123A Lithium
BATTERY LIFE	Up to 5 hours continuous
