

About Sky Sapience

Sky Sapience was established to fulfill the increasing need for compact, stabilized, hovering masts which enable 360° observation. The company's dedicated team members are experts in the fields of aeronautics, robotics, computer programming, electronics, and business management.

The multi-purpose HoverMast-100 is the first in a family of tethered hovering platforms. Other Sky Sapience products include:

The HoverMast-120, capable of carrying larger payloads; the seaborne HoverMast-Exo for port and maritime use and the HoverMast-C, intended primarily for civilian applications.

Chosen as sole developer by the IMOD and supplier to the IDF, Sky Sapience has a strong technological core and a multi-patented, tested product.

Delivering the only mobile tethered hovering platform in the world

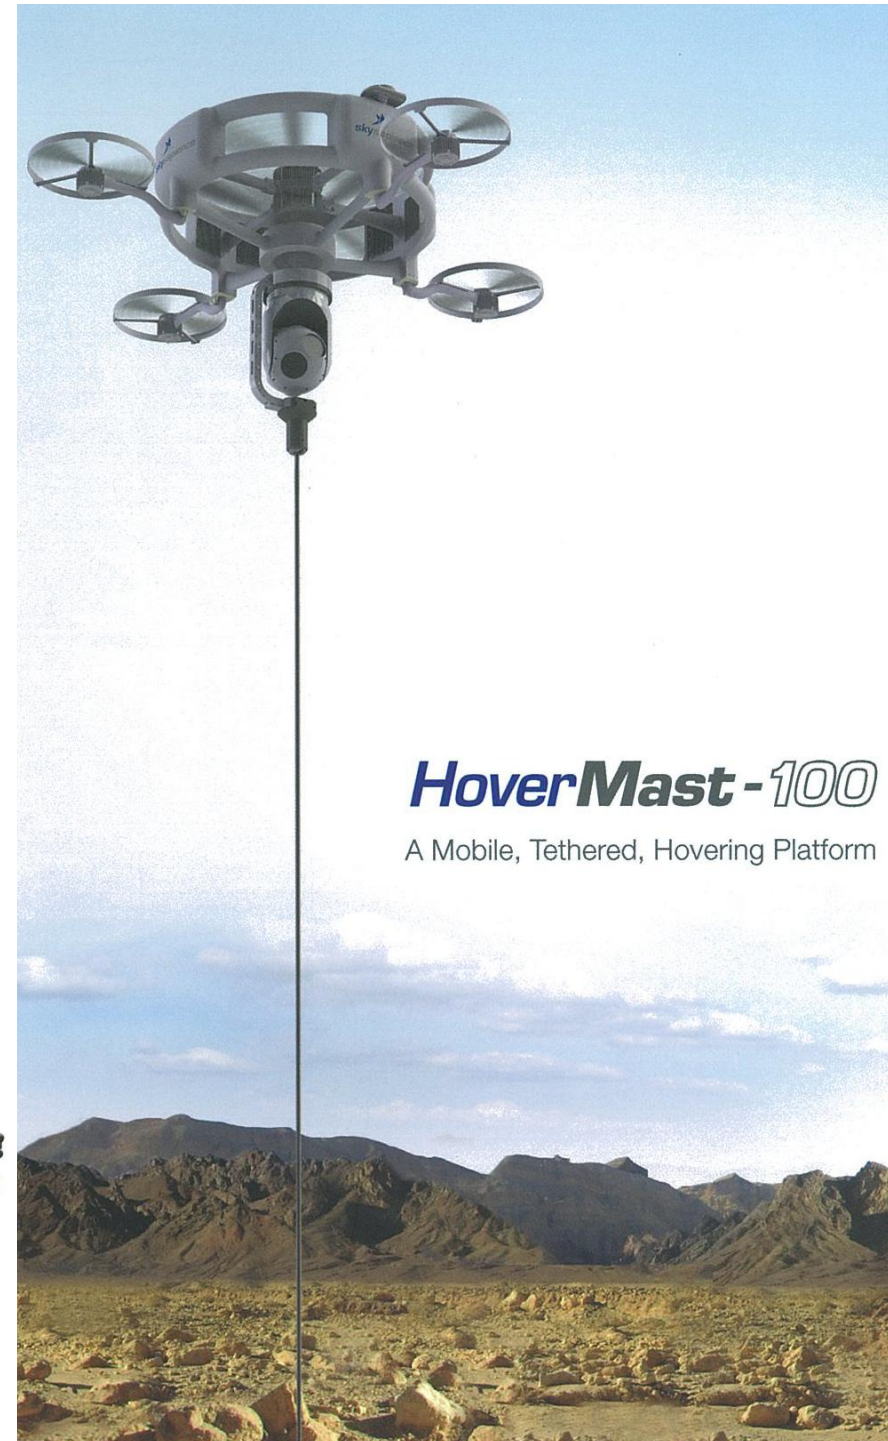

A new perspective on security
