

UFED 4PC

The UFED Software-based Mobile Forensic Solution

Cellebrite presents UFED 4PC; a cost-effective, flexible and convenient application suite for any investigative or intelligence personnel requiring a mobile forensic tool kit on their existing PC or laptop. Based on trusted UFED software technology, UFED 4PC provides users with advanced capabilities to perform data extraction, decoding and analysis from the widest range of mobile devices, on a single platform.

UFED 4PC is a versatile tool that runs on existing hardware alongside other third-party software. It comes with a suite of applications, peripherals and accessories for successful investigations.

At a Glance

UFED 4PC brings the power of Cellebrite's renowned UFED mobile forensic tools to your work station.

- ▶ All-in-one mobile forensic solution adding flexibility and convenience to investigations
- ▶ Unrivalled support for Android, iOS, and BlackBerry® devices
- ▶ Trusted UFED technology providing users with all physical, file system and logical extraction capabilities
- ▶ Custom boot loaders ensure forensically sound extractions
- ▶ Simultaneous operations; extraction, decoding and analysis can be carried out at the same time, on a single platform
- ▶ Streamlined work flow – UFED 4PC software, UFED Physical/Logical Analyzer, UFED Phone Detective and UFED Reader
- ▶ Easily integrates with the user's customized work environment
- ▶ Unique evidence verification engine enables validation of recovered artifacts
- ▶ User-friendly UI
- ▶ Frequent updates to ensure compatibility with new phones as they enter the market
- ▶ UFED 4PC comes with a compact and lightweight case
- ▶ UFED 4PC extraction software is touch screen enabled, allowing easy use on tablets

Offerings

UFED 4PC is available with either an Ultimate or Logical offering. UFED 4PC Ultimate enables physical, file system, and logical extractions of intact and deleted data, and passwords. It comes with the UFED Physical Analyzer for in-depth analysis and decoding. UFED 4PC Logical enables fast and simplified logical and password extractions. It comes with the UFED Logical Analyzer for easy analysis and reporting.

UFED 4PC Capabilities with an **Ultimate** License Include:

- ▶ Physical extraction and decoding while bypassing pattern lock / password / PIN from Android devices including HTC, Motorola, Samsung Galaxy S, SII, SIII family and more
- ▶ Physical extraction from BlackBerry devices running OS 4-7. Exclusive decoding: BBM data, apps, emails, Bluetooth and more
- ▶ Widest support for extraction and decoding from Apple devices running iOS3+
- ▶ Physical extraction and decoding from locked Nokia BB5 devices – password extraction from selected devices
- ▶ Unrivalled access to locked devices by bypassing, revealing or disabling the user lock code
- ▶ File system extraction from any device running Windows phone 7.5 and 8 including Nokia, HTC, Samsung, Huawei and ZTE
- ▶ The most powerful solution for physical extraction from phones with Chinese chipsets
- ▶ TomTom® trip-log decryption, and data extraction from other portable GPS devices
- ▶ Rich set of decoding: Apps data, passwords, emails, call history, SMS, contacts, calendar, media files, location information etc.
- ▶ Contains a unique, rich set of analysis features including timeline, project analytics, malware detection and watch list
- ▶ Generate and customize easy-to-read reports in a variety of formats using the UFED Physical Analyzer

Extraction

Decoding

Analysis

UFED Applications: UFED Physical Analyzer* / UFED Logical Analyzer – UFED Reader – UFED Phone Detective

Hardware: UFED Device Adapter – UFED Multi SIM Adapter – Carrying case – Tip & Cable Set – Tip & Cable Organizer – UFED Memory Card Reader – SIM ID Cloning Cards X3 – Micro SIM ID Cloning Cards X3 – Phone Power-up Cable – Cleaning Brush for Phone Connectors – Tip Velcro Strap – USB Drive 8GB – USB Extension Cable – USB Power-up Cable for UFED Device Adapter

*Available with Ultimate license

About Cellebrite

Founded in 1999, Cellebrite is a global company known for its technological breakthroughs in the cellular industry. A world leader and authority in mobile data technology, Cellebrite established its mobile forensics division in 2007, with the Universal Forensic Extraction Device (UFED). Cellebrite's range of mobile forensic products, UFED Series, enable the bit-for-bit extraction and in-depth analysis of data from thousands of mobile devices, including feature phones, smartphones, portable GPS devices, tablets and phones manufactured with Chinese chipsets.

Cellebrite's UFED Series is the prime choice of forensic specialists in law enforcement, military, intelligence, corporate security and eDiscovery agencies in more than 60 countries.

Cellebrite is a wholly-owned subsidiary of the Sun Corporation, a listed Japanese company (6736/JQ)
