

Company Profile

Point Trading Group is an Australian owned company providing mission critical equipment, maintenance and services, in Australia and abroad for Defence, National Security, Law Enforcement, and Emergency Service organisations.

MISSION STATEMENT

“To be the leaders in technological innovation and provide the best products to enhance Defence, National Security and Law Enforcement capabilities with outstanding service and reliability”

Founded in 1987 and celebrating 30 years of operation in Australia and abroad, PTG provides R&D, Integration, assembly, testing, commissioning, training, maintenance and support for all products and technologies to ensure a complete, mission ready solution for our customers.

Products we manufacture and supply are the results of our own ongoing R&D investment or are sourced from world leading manufacturers.

PTG has been recognised by the Australian Department of Defence as a Prime Integrator and a service centre for maintenance and support.

PTG Engineering Management System (both software and hardware) is compliant to EIA-632 Standard.

PTG is accredited:

ASNZS ISO 9001:2015 Quality Management and
ASNZS ISO 31000:2018 Risk Management

Company Profile

POINT TRADING SERVICES Capability Overview

Point Trading Services offers a complete electro-optical design and manufacturing of night vision, dedicated chemical testing and maintenance lab for CBRN protection and detecting devices, and Integration of a wide variety of complex systems for Defence, National Security, Law Enforcement, and Emergency Service Organisations.

PTS operates out of dedicated facilities based in Melbourne, Victoria – Australia, including over 3,000sqm of industrial floor space, 1,000 sqm of office space as well as custom built and dedicated labs for product design and testing. All PTS facilities and properties are owned by PTS.

PTS has established itself via a number of Defence and Homeland security contracts as a leading supplier of Defence, National Security, Law Enforcement, and Emergency Services products including provision of ILS (integrated logistical support) to ensure readiness.

PTS provide the full range of testing and maintenance services for our products, as well as provision of repairs during and after the warranty period. PTS stocks spare parts and components for our products and have developed a unique purpose built stock control system for identification, stock control, and dispatch of spare parts – the PTS system ensures reliable, and accurate service with minimum downtime to the users.

PTS ILS management program includes purpose built software that will inform users of scheduled maintenance requirements, as per each manufacturer's specifications.

PTS is ISO 9001 :2015 Quality Management and AS/NZS IOS 3100:2009 Risk Management qualified, to ensure our ability to provide your servicing needs.

Since 2009, PTS has completed implementation of an Engineering Management System compliant to EIA-632 Standard.

Our service includes:

- R&D Integration, design & implementation as prime or subcontractor
- Assembly and pre-delivery testing of equipment
- Testing and repair of electro optical equipment
- Refurbishment of in-service equipment
- Calibration and verification of equipment
- Distribution and secure storage facilities
- Web based ILS system
