

Tactical shirt

Description

The tactical shirt is a combat-specific garment specifically designed to be worn under body armor.

It provides:

- Comfort with breathable stretch fabrics on torso and under arms.
- Protection with strong flame resistant Rip Stop fabric on sleeves and removable elbow pads.

The tactical shirt features:

- Zip collar for easy donning and doffing.
- Pockets with zippers on biceps and forearms for storage of documents and other items.
- Tightening Velcro on lower arms.
- Elbow pad 3D mesh included in self fastening pocket on elbow.

Features

- Lightweight
- Durable
- High performances
- Removable elbow pads
- Pockets for storage
